

Who we are

East West Corporation Limited, is a privately owned business entity in Hong Kong, with offices in China and South America. With the core business being sourcing, design and development of consumer products, our business model is based on providing a complete set of services, which include and are not limited to distribution, shipping, financing.

We are embarking on a strong base in some countries in South America and aim to deliver a high standard of service to our clients in these regions.

Established since 1968, EWCL employs a small group of staff in their Hong Kong office with customer representatives in different countries.

A trading company, exporter, importer – some of the various names related to the trading business with China being at its core, we consider EWCL as an “integrated service provider” for consumer goods trade – with more product ranges being constantly added to expand our business and markets.

During Covid19 pandemic world over , the sales of prefab houses has increased tremendously providing safety , comfort , security at affordable prices .

CONSTRUCTION DRAWING DESIGN

We can make the design according to clients' requirements. For the design, it includes floor plan, front and rear elevation, roof plan, profile for steel structure, etc. Our engineers can also analyze the steel structure according to clients' needs of bearing load and local wind speed, and then optimize the drawing to save the cost for clients.

3D DESIGN

16 PRODUCTION LINES

Annual Production Capacity Of 10.92 Million Square Meters

3.24 million m² for prefab houses
290 containers per day and
8700 containers per month
720 portable toilets per month

ANNUAL OUTPUT

ONE-STOP SERVICE

EWCL can offer you one-stop service. We can design according to clients' requirements. We have strict quality control during production, and we can help clients to arrange shipping to their local port or door-to-door.
